Premium 95 has no terminal gate price of its own. We use the unleaded price, so the premium grade’s extra wholesale cost sits in its retail difference, and we give no margin for it.

Retail: FuelRadar station-day averages for Perth; our retail records begin on 13 April 2026, so a period before then has the wholesale side only. Last year’s average is the previous calendar year. Until we have a full calendar year of retail prices it shows the wholesale side only: the terminal gate price, crude oil and excise. Its GST, retail difference and margin need a retail price, so they are left out. Terminal gate price: AIP, Perth terminal, carried over weekends. Crude oil is the US Energy Information Administration Brent spot price (FRED series DCOILBRETEU), converted to Australian cents a litre at each day’s exchange rate (FRED series DEXUSAL) and 158.987 litres a barrel, then averaged over the days both are published. Excise: ATO, averaged over the period’s days. Wholesale is the terminal gate price without GST and excise, less crude oil. GST is one eleventh of the retail price. The retail difference is what is left: the retailer’s costs and margin, without its GST. Bands are rounded so they add up to the retail price.

Month by month

Perth's U91 average climbed from 174.7 c/L in July 2026 to 200.3 c/L in August and 220.1 c/L in September, while diesel rose from 198.6 c/L to 241.2 c/L and 262.9 c/L. On 1 July 2026, U91 averaged 164.1 c/L and diesel averaged 177 c/L, before U91 reached its highest day of 239.8 c/L on 23 September 2026 and diesel peaked at 281.7 c/L on 24 September 2026, ending the quarter at 239 c/L and 275.5 c/L respectively.

Gross indicative retail margins

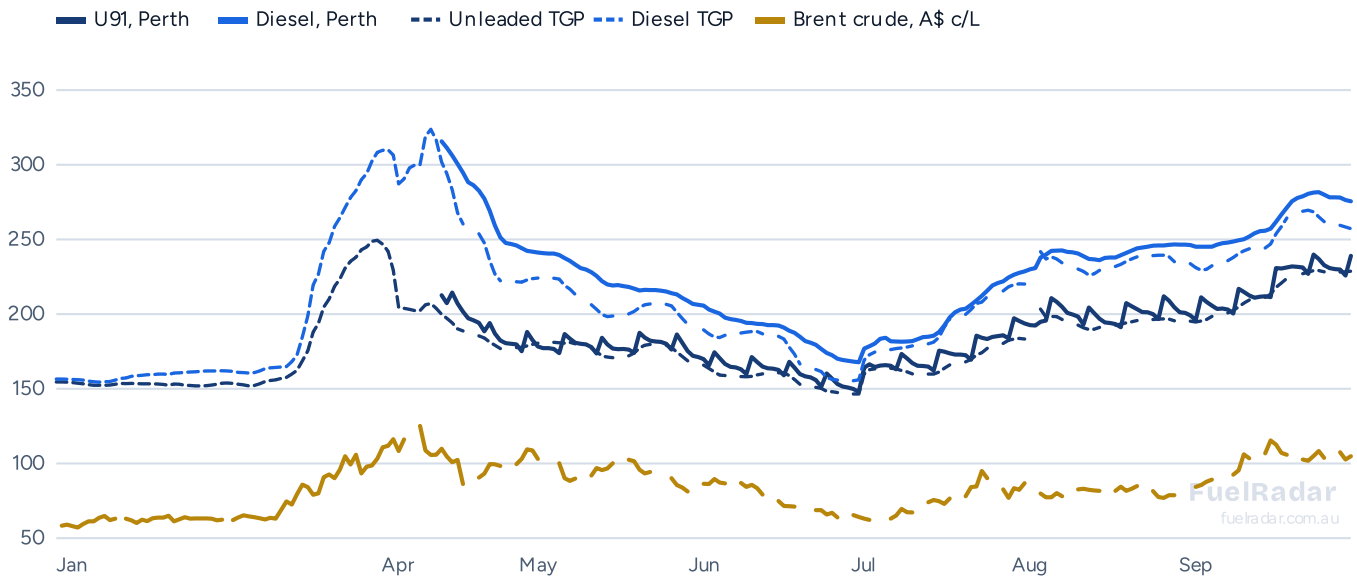

The gross indicative retail margin for U91 in Perth averaged 5.9 c/L, rising 1.1 c/L on the previous quarter, while the diesel margin fell 6.8 c/L to 8.7 c/L. Month by month, this indicative margin for U91 went from 6.5 c/L in July to 6.1 c/L in August and 5.3 c/L in September, as the diesel margin shifted from 5.5 c/L to 7.5 c/L and 12.7 c/L, keeping in mind this is before the retailer's own costs.

The gross indicative retail margin is the retail average less the terminal gate price, both with GST. It is before the retailer's own costs (rent, wages, freight to the site, card fees), so it is not profit. The terminal gate price is AIP's price at the Perth terminal. AIP publishes terminal gate prices for the capital-city terminals only, so a regional town is measured against the capital's terminal, and its margin includes the cost of getting fuel there. Weekday prices are carried over weekends and public holidays.

Market trends this year

Terminal gate prices at the Perth terminal averaged 192.2 c/L for unleaded and 225.4 c/L for diesel. Brent crude oil averaged 86 c/L over the quarter, with an exchange rate of 70.62 US cents per Australian dollar.

The price cycle and excise

Perth experienced 12 regular price-cycle hikes during the quarter, with peaks spaced an average of 7.6 days apart. These hikes delivered an average margin rise of 13.3 c/L at the bowser.

Other sharp rises in Perth's U91, not hikes	From	To	Rise	TGP change	Came with
1	2 August	5 August	+18.4	+15.2	Excise change, 3 August

How we count a price-cycle hike: Perth's daily U91 average less the Perth terminal gate price (the indicative margin) rises by at least 8.0 c/L within 5 days, the retail average rises as much, stations making up at least 25% of Perth's raise their price by 5.0 c/L or more in a day, and the margin then eases back by half within 21 days. A rise within 3 days of an excise change, or one the terminal gate price explains, is not a hike. With no hike, no regular price cycle ran and prices followed wholesale costs.

Fuel excise

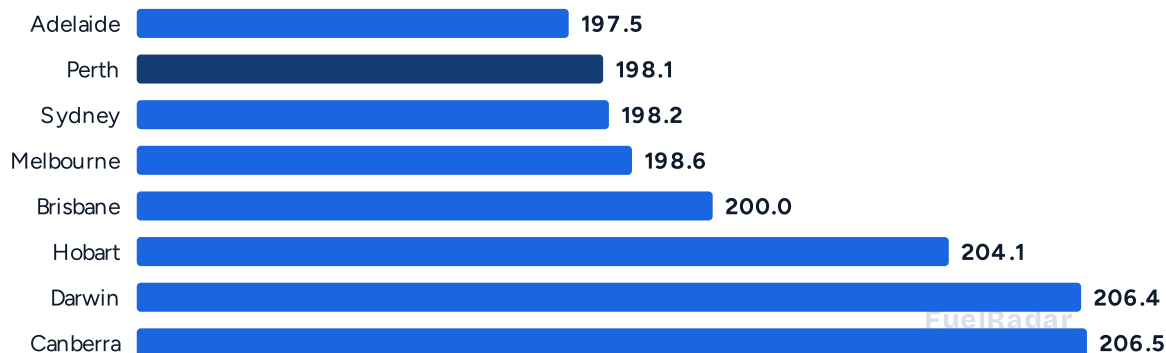

The fuel excise underwent a partial restoration on 1 July 2026, rising 16 c/L to 36.6 c/L. The full rate was then restored on 3 August 2026, increasing another 17.1 c/L to reach 53.7 c/L.

Petrol and diesel excise	Rate (c/L, before GST)	Change
In force on 1 July 2026	36.6	
From 1 July 2026 (Partial restoration; still a temporarily reduced rate, 1 July to 2 August 2026)	36.6	+ 16.0
From 3 August 2026 (Full rate restored, indexed by the CPI factor of 1.020)	53.7	+ 17.1
Average over the days of 1 July to 30 September 2026	47.6

Excise is charged on fuel as it leaves the terminal, so it is already in the terminal gate price; GST is then charged on top.

The capital cities

Perth was the second cheapest of the 8 capital cities for U91, sitting behind Adelaide as the cheapest and Canberra as the dearest. For diesel, Perth also ranked second cheapest of the 8 capital cities, with Adelaide again the cheapest and Canberra the dearest.

Each capital is its ABS urban area, worked out exactly as in its own state's report. The margin is against its own terminal's gate price (Canberra uses Sydney's). Green is the cheapest capital and red the dearest.

Perth by area

Perth South East was the cheapest ABS SA4 area for U91 at an average of 197.3 c/L, while Mandurah was the dearest at 201.1 c/L. This created a price spread of 3.8 c/L across the capital's local areas.

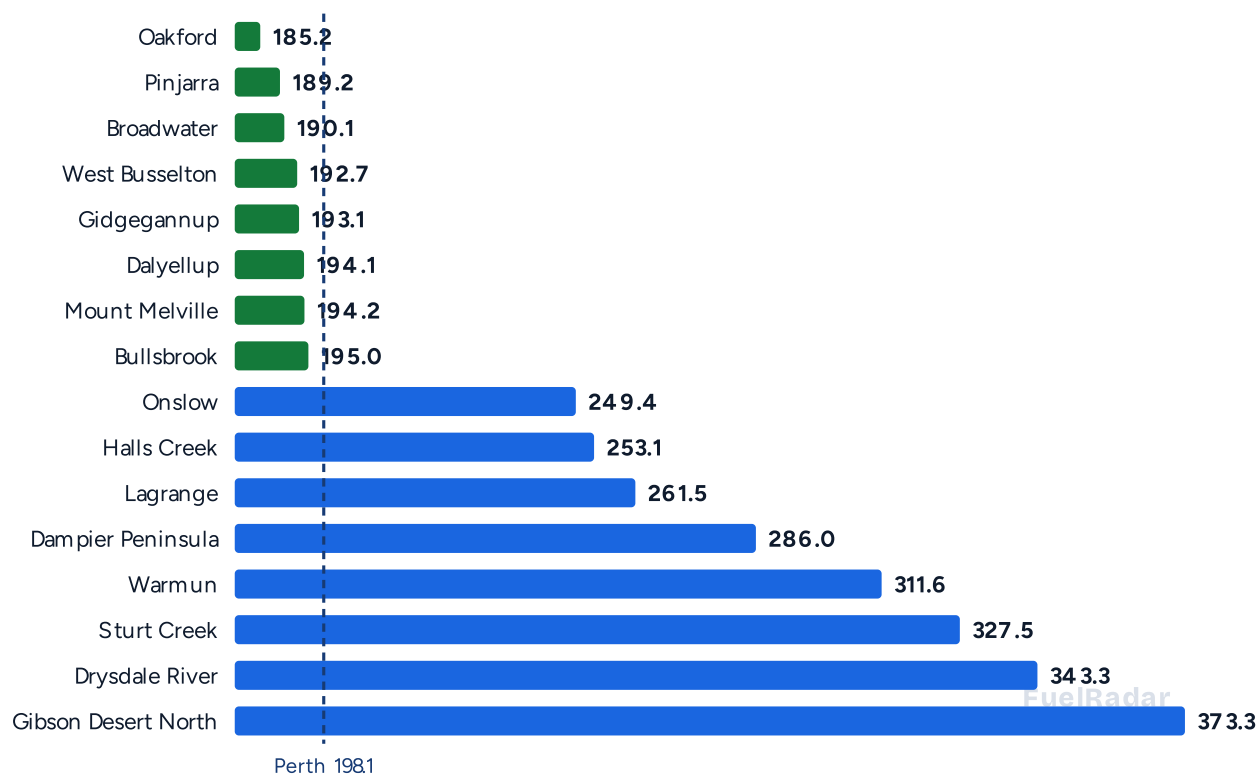

Area (ABS SA4)	U91	Change	Margin	Diesel	Margin	Stations	Cheapest U91 station
Perth South East	197.3	+23.2	5.1	233.9	8.5	125	Costco Perth Airport (180.9)

Mandurah	201.1	+23.7	8.9	241.4	16.0	23	Vibe Mandurah (196.5)

Areas are the ABS Statistical Areas Level 4 (SA4, 2021) inside Perth’s urban area, named in plain words (“Brisbane - East” is Brisbane East). An area counts its stations that reported on at least a quarter of the days; its average, station count and cheapest station all come from them, so the cheapest station never averages more than its area.

Regional towns

Oakford was the cheapest town for U91 at 185.2 c/L, while Gibson Desert North was the dearest at 373.3 c/L, creating a town spread of 188.1 c/L. For diesel, Oakford was again the cheapest at 220.8 c/L and Gibson Desert North the dearest at 392.3 c/L, with a spread of 171.5 c/L. Across the state, 14 of the 111 ranked towns were cheaper than Perth for U91, and 17 of the 106 ranked towns were cheaper for diesel.

Other fuels: cheapest and dearest towns

Fuel	Cheapest town	Average	Dearest town	Average	Towns ranked

Premium 98	Oakford	211.0	Port Hedland	257.8	69

A town is the ABS locality a station sits in; a station in a large regional city (marked "city") counts in that city as one place. A town is ranked with at least 2 stations that reported on a quarter of the days and a price on 60% of the days. Its margin is against Perth's terminal gate price, so it includes the cost of carrying fuel to the town.

Crude oil and the dollar

Brent crude averaged \$96.30 US a barrel or \$136.70 Australian a barrel this quarter, with the exchange rate at 70.62 US cents. In the previous quarter, it cost \$102.60 US or \$144.80 Australian, when the dollar bought 71.01 US cents.

Period	Brent, US\$ a barrel	US cents per A\$	Brent, A\$ a barrel	Brent, A\$ cents a litre	Trading days
September quarter 2026	96.3	70.62	136.7	86.0	65
June quarter 2026	102.6	71.01	144.8	91.1	61
March quarter 2026	80.7	69.56	116.5	73.3	63
December quarter 2025	63.7	65.68	96.9	61.0	64

Brent: Europe Brent spot price FOB (US Energy Information Administration). Exchange rate: the Federal Reserve's noon buying rate in New York. Both via FRED, Federal Reserve Bank of St. Louis, averaged over the days each is published; the Australian-dollar figures use each day's rate. A litre is a barrel ÷ 158.987. We use these free benchmarks because the refined-petrol and diesel benchmarks Australian wholesale prices follow (Singapore) are sold by subscription.

Outlook

An estimate, not a guarantee. Our outlook describes the days after the period ended. Prices can move quickly; check the live price at the station before you fill.

We give our outlook only in the days after a period ends, when it still describes the days ahead. See today's forecast for your area in the FuelRadar app or at fuelradar.com.au/fuel-price-reports/wa/2026-q3.

Data quality, method and sources

We collected prices from 969 service stations across the state for this report, drawing on our retail price records that start on 13 April 2026.

Service stations listed	970
Stations that reported a price in the period	969
Station-days counted (every fuel)	261,766
Days covered	1 July 2026 to 30 September 2026
Our price records begin	13 April 2026
Towns ranked for U91 (left out: too few steady stations)	111 (200)

The station-day average

Each day, every service station counts once at its latest price as of the end of that day, in the state's own time. A price is carried forward for at most 30 days, and each average is taken over every station-day in the period. Prices held for checking, prices a station reported as unavailable and implausible prices are left out (we count U91 between 100.0 and 450.0 c/L).

Places

Perth is its ABS urban area, split into ABS SA4 areas. Outside it, a town is the ABS locality a station sits in. A town or area counts its stations that report on at least a quarter of the days and is ranked with at least 2 of them and a price on 60% of the days.

Wholesale, margins and the cost of a litre

The terminal gate price is AIP's weekday price at the nearest terminal: the Perth terminal. AIP publishes the capital-city terminals only. Weekday prices are carried over weekends, and a period's price is the mean of its calendar days. The margin is the retail average less the terminal gate price. Crude oil is the US Energy Information Administration Brent spot price (FRED series DCOILBRENT EU), converted to Australian cents a litre at each day's exchange rate (FRED series DEXUSAL) and 158.987 litres a barrel, then averaged over the days both are published. In the cost of a litre, wholesale is the terminal gate price without GST and excise less crude oil, excise is the ATO rate averaged over the days, GST is one eleventh of the retail price, and the retail difference is the rest. Last year's average is the previous calendar year. Until we have a full calendar year of retail prices it shows the wholesale side only: the terminal gate price, crude oil and excise. Its GST, retail difference and margin need a retail price, so they are left out.

About these prices

These are averages over the whole period, not today's prices. Check the station price and its update time before you fill. The full report, with every town linked to its live prices, is at fuelradar.com.au/fuel-price-reports/wa/2026-q3.
